Chinese Customs Advance Manifest (CCAM) Regulation

Dear Valued Customers,

China customs has recently released the bulletin they promised containing mandatory data elements. The bulletin doesn't contain any new data elements compared to what has been communicated earlier.

The authorities intend to release the penalty guidelines for the CCAM regulations. This will be the next step towards the communication of the official enforcement date. At this time, we don't have any indications of when they intend to release this announcement.

We will keep you informed of any further development regarding the enforcement. If you have any questions or require any assistance regarding this new regulation, please don't hesitate to contact your local Maersk Line representative.

We thank you for your always support for Maersk Line. For any questions, please feel free to contact your local customer service or sales representatives. You will find contact details of our local office on www.maerskline.com.
