

Customer Advisory

Your upcoming Import shipment to Cambodia requires reporting to Customs (ASYHUB)

February 29, 2024

Dear Customer,

With reference to the recently published notification on the reporting requirements for pre-arrival processing by Cambodian customs, from 1st-March-2024 onward, NVOCCs and freight forwarders that are consignee to a shipment entering Cambodia are required to report their House BL information to customs not later than 24 hours before the vessel's departure from the last foreign port. To help you comply with this requirement, Maersk offers a cutting-edge digital solution that makes it easy to submit all the required information via Maersk.com.

[Customs Announcement - ASHYUB Submission Timeline](#)

How To Submit House BL data:

Click the link to view [PDF file](#).

1. Navigate to www.maersk.com and log in to your Hub dashboard. Enter your BL number in the Import manifest box.
2. Click on Create House BL.
3. Enter your House BL details and allocate your cargo

The House BL instructions can be submitted by the consignee/forwarder as soon as the Master BL shipping instructions have been submitted until 24 hours prior to vessel arrival in Cambodia.

This is a value-added service, which will incur a charge of **30 USD** per House BL under a charge named: **House Transport Document Service**.

By submitting House BL data through www.maersk.com customers can re-use available data, thereby limiting the need for manually keying in. Together with our advanced validation rules this reduces the risk of errors and discrepancies that could otherwise lead to customs penalties.

Best Regards,

Maersk (Cambodia) Ltd.
