Our LCL Solutions

**Less than container Load (LCL)** is an ocean shipment that is not large enough to fill a standard cargo container, or shipments from multiple clients that are being consolidated into a single container before shipping them to their destination.

In Sealand, we offer:

- **Direct container consolidation**
  Shipping directly from origin to destination: fast & reliable.

- **Hub Program**
  Transhipment via our hubs: de-consolidation and reconsolidation. Effective for less common destinations and simplification of handling at destination.

- **Multi-origin Consolidation**
  Consolidate cargo from different origins into one container leading to reduction of handling time and costs at destination.

*We offer a broad range of world-class LCL-services*

By exploring your particular needs, we can meet with your specific requirements at a competitive price.
Why choose Sealand LCL?

- Integrated services eligibility
- Financial stability
- End-to-End visibility
- Group position, own network and system
- Competitive price
- Allocation protection and non-roll
