

Seafood Policy

Reefer Solutions

Policy

Maersk will not accept whale meat and whale products or shark meat and shark products due to CITES and other restrictions and regulations governing the international trade of these products.

Details

It is our policy to transport all legal cargo. On whale/shark products, we have made an exception because there is a particularly high risk of illegality (for example: CITES convention, etc.) and it is difficult for our organisation to determine whether a shipment of these products is legal or illegal.
